

**Banner Frame (\$20)** – Get Your Business Name Up Where it can be SEEN. Our equipment rental company now offers a “Banner Frame” to hang your business’s banner high above the crowd. The banner frame attaches to their 10’ x 10’ shade tent.

The Banner on this tent is 2’ tall x 9’6” long.

Your banner can not be longer than 9’ 6”. Banners that are taller than 3’ will hang below the bottom edge of the tent. Your banners should have at least 5-6 grommets – 1 on each corner, and 2 additional ones on the top of the banner. The bare minimum should be 4, one in each corner. Lack of grommets will usually result in a poor presentation, and possible damage of your banner. The rental company provides all materials to affix the banners to the framing. Typically they use plastic zip ties.
